

Virtual Patient and Family Support Group

Fibromuscular Dysplasia (FMD) and Arterial Dissection

Online Session via Zoom

Tuesday, October 17, 2023 | 6 – 7:30 p.m. EST

Featured Topic and Guest Speaker:

Spontaneous Coronary Artery Dissection | Esther Kim, MD

Director, Women's Cardiovascular Health, Atrium Health Sanger Heart & Vascular Institute

About the Group

This online support group meets quarterly, providing a forum for education and open discussion. Each session focuses on topics related to FMD and arterial dissection patients. Led by **Heather Gornik, MD**, co-director of the Vascular Center and director of the Fibromuscular Dysplasia & Arterial Dissection Program at [University Hospitals Harrington Heart & Vascular Institute](https://www.uhhospitals.org/harrington-heart-vascular-institute), the group partners with the [Fibromuscular Dysplasia Society of America](https://www.fibromuscular-dysplasia-society.org) and **Pamela Mace**, executive director and FMD patient.

Register online at Uhhospitals.org/FMDGroup

Once registered, you will receive an email with personal log-in instructions to use for this session.

Video and audio are enabled for all participants; however you may opt to turn your camera off and stay muted.

Questions can still be submitted through the chat function. Group meetings are recorded for transcript purposes only.

All participant information will be redacted prior to posting or distributing.
